

CARBON 4x4

A new vision of travel, ready to take you
beyond any terrain.

ATLANTIS

BORN TO TRAVEL

CARBON
4x4

“A true 4x4 motorhome is not just about four-wheel drive. It needs a body that can keep up.”

CARBON
4x4

Carbon 4x4.
The first 4x4 motorhome with a carbon-fibre monocoque bodyshell.

Designed for those who want to go further, **Carbon 4x4** combines the **Mercedes-Benz Sprinter** four-wheel-drive system with a **carbon-fibre monocoque bodyshell**, a perfect combination for withstanding the stresses typically associated with off-road travel. Because a true 4x4 motorhome is

not just about four-wheel drive: it needs a body-shell built to keep up. Its **gas-free** philosophy, high level of autonomy and exploration-focused design create a motorhome made to reach new horizons, without compromising on the comfort and build quality that define Atlantis.

**Designed to explore.
Built to experience.**

Every interior is designed to make long journeys and remote destinations feel effortless. Combining outstanding thermal insulation with high-autonomy systems, Carbon 4x4 offers a living space that is comfortable, welcoming and practical, enhanced

by premium materials and refined finishes.

The result is an environment that delivers comfort, protection and well-being, wherever the journey takes you.

CARBON
4x4

TRANSVERSE BED

The **Carbon 4x4** layout with **transverse bed** has been designed to offer well-defined living areas and maximum onboard comfort. The front kitchen and the leather L-shaped dinette create a welcoming and functional living space, complemented by swivelling cab seats and the sliding table.

The bathroom features a practical **retractable washbasin**, a solution that optimises space while keeping the shower area accessible at all times. At the rear, the transverse bed is positioned above the spacious garage, providing generous storage capacity without compromising onboard comfort.

TWIN BEDS

This layout is designed for those who want the comfort of a spacious sleeping area with twin beds, without compromising on a practical and functional living space.

The front kitchen and the genuine leather dinette create a bright and functional living area, completed by swivelling cab seats and a sliding table. The

bathroom features a **fold-away washbasin**, keeping the shower area clear and ready for use at all times. The large rear garage completes the layout with generous storage capacity, ideal for carrying bicycles, equipment and everything needed for every adventure.

Technical Data

STRUCTURE	Carbon-fibre monocoque bodyshell
CONSTRUCTION TECHNOLOGY	One-piece body shell manufactured without seams
LENGTH	6750 mm
WIDTH	2150 mm
HEIGHT	3100 mm
TECHNICALLY PERMISSIBLE MAXIMUM LADEN MASS	4,100 kg
TRAVELLING SEATS	4*
BERTHS	2 + 2*
AVAILABLE LAYOUTS	Transverse bed / Twin beds
INSULATION	Closed-cell expanded PVC with high thermal insulation
FLOOR	Insulated technical double floor
ENTRANCE DOOR	600 × 1870 mm with opening window, integrated flyscreen and blackout blind
GARAGE	Insulated, heated and illuminated
STORAGE COMPARTMENT DOORS	1200 × 800 mm with damped opening system
WATER TANKS	20/200-litre fresh water tank and 150-litre grey water tank, with electric frost-protected drain valve
ENERGY SYSTEM	Gas-Free technology with lithium batteries, photovoltaic solar panels and inverter (OPT)
HEATING SYSTEM	Truma Combi 6 D/E (OPT)
AIR CONDITIONING	Truma Saphir Compact (OPT)
REFRIGERATOR	130 / 140-litre compressor refrigerator*
COOKING HOB	Induction (OPT)
SOCKETS	USB, 12 / 220 V, TV socket
ACCESS SYSTEM	Centralised electric locking system with individual door control, equipped with emergency handles
AWNING	Integrated electric Thule Omnistor awning
CONTROL PANEL	Garmin SERV+ 10" display
FIBREGLASS COMPONENTS	water tanks, black kitchen sink with Ø 40 mm drain, shower tray with Ø 90 mm drain, bathroom washbasin
PLUS	Anodised aluminium steel hinges and carbon fibre entrance handle
OUTDOOR PACK	Integrated electric awning LED exterior light, Electric step, Roll-up flyscreen, Rear-view camera (OPT)

*Depending on the configuration

Mercedes-Benz Sprinter 4x4

Based on the Mercedes-Benz Sprinter 4x4 chassis cab with Heavy Duty 4,100 kg chassis, 419 CDI 37/40 Select version. Equipped with a 2.0-litre turbodiesel engine developing 190 hp (140 kW), combined with the 9G-TRONIC automatic transmission.

Mercedes-Benz Pack

Mercedes-Benz Pack includes All-Terrain tires, alloy wheels, and the Mercedes-Benz ADAS package featuring Active Brake Assist, Blind Spot Assist, Crosswind Assist, and adaptive cruise control. It also includes Mercedes me connect connectivity, the MBUX multimedia system with integrated Mercedes-Benz navigation and connectivity, THERMOTRONIC automatic climate control, and a leather multifunction steering wheel.

Carbon 4x4 OFF-ROAD PACK (OPT)

- A. Recovery Boards
- B. Rear Ladder
- C. All-Terrain Spare Wheel
- D. Air Compressor

- E. Snorkel
- F. LED Light Bar
- G. Bull-bar
- H. Skid Plate
- I. Winch
- L. Air Suspension

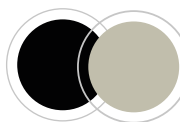

Off-road capability: approach angle, departure angle, ground clearance, raised air intake with snorkel, four-wheel drive and all-terrain tyres.

What colour will your next adventure be?

The colour palette of the Atlantis Carbon 4x4 has been carefully selected to enhance the vehicle's design. You can therefore choose the colour of the

body and, as an option, match the cab in the same shade. A way to make it truly yours and express your style on every journey.
